NEW QUESTION: 4

A data breach has occurred and your company database has been copied. Which security principle has been violated?

- A. access
- B. confidentiality
- C. control
- D. availability

Answer: B

Explanation:

Confidentiality: There are two types of data: data in motion as it moves across the network; and data at rest, when data is sitting on storage media (server, local workstation, in the cloud, and so forth).

Confidentiality means that only the authorized individuals/systems can view sensitive or classified information.
