NEW QUESTION: 1
A user is creating their first canvas app in Power Apps.
The user does not know what types of controls they can include.
You need to recommend solutions for the user.
Which types of controls would you recommend using in Power Apps? To answer, select the appropriate control in the dialog box in the answer area.
NOTE: Each correct selection is worth one point.

Answer:
Explanation:

Explanation:
Box 1: Gallery
A Gallery control can show multiple records from a data source, and each record can contain multiple types of data. For example, a Gallery control can show multiple contacts with each

item showing contact information that includes a name, an address, and a phone number for each contact.
Box 2: Meeting-screen template
In a canvas app, add a meeting screen that lets users create and send meeting requests from their Office 365 Outlook accounts. Users can search for attendees in their org and add external email addresses. If your tenant has meeting rooms built into Outlook, users can select a location as well.
Box 3: Image
If you add one or more Image controls to your app, you can show individual images that aren't part of a data set, or you can incorporate images from records in data sources.
Incorrect Answers:
List box: A list in which the user can select one or multiple items.
With the Add picture control in PowerApps users can take photos or upload image files from their device and update the data source with this content. On a mobile device the user is presented with the device's choice dialog to choose between taking a photo or selecting one already available.
