#### NEW QUESTION: 1

Applying a new Azure App Service plan, you must select a plan. Which of the following is a valid plan? (Select two.)

A. App Service Free

B. App Service Basic

C. App Service Standard

D. App Service Premium

E. App Service Premium V2

**Answer: D**

**Explanation:**

Besides swapping, deployment slots offer another killer feature: testing in production. Just like the name suggests, using this, you can actually test in production. This means that you can route a specific percentage of user traffic to one or more of your deployment slots.

Example:
