As an internationally recognized company that specializing in certification exam materials, our INSTC\_V7 exam training guide cover the very part of all dimensions.

If we have a new version of the INSTC\_V7 study material, we will send an E-mail to you, If our BICSI Installer 2 - Copper Exam guide torrent can't help you pass the exam, we will refund you in full.

**NEW QUESTION: 1**

Refer to the exhibit.

After you apply the given configuration to a router, the DHCP clients behind the device cannot communicate with hosts outside of their subnet. Which action is most likely to correct the problem?

- A. configure the default gateway
- B. Configure the dns server on the same subnet as the clients
- C. Activate the dhcp pool
- D. Correct the subnet mask

**Answer: A**

**NEW QUESTION: 2**

You are the database administrator for a MySQL database server. The network contains new and old (pre-4.1) clients. You configure another database server on the network. You allow the network clients to connect to the new server. Some users complain that when they try to connect to the server, they

receive the following error:

ERROR 1251: The client does not support authentication protocol requested by the server; consider upgrading MySQL client  
You do not want to upgrade any client or server right now, and want to enable all clients to connect to the new server successfully. Which of the following steps will you take to resolve the issue?

- A. Run the server with the --secure-auth option.
- B. Run the server with the --old-password option.
- C. Run the server with the --enable-old option.
- D. Run the server with the --allow-old option.

**Answer: B**

Explanation:

According to the question, you are receiving Error 1251. Servers from MySQL 4.1 and later, use an enhanced authentication mechanism for providing greater security. This mechanism provides better passwords than in the older version. When client programs try to connect to the server, they do not understand this mechanism and produce the above stated error. In order to resolve the issue, you will have to run the server with the --oldpassword option. Starting the server with this option will provide support to the older clients.

Answer A is incorrect. This option will enforce the server to reject connection attempts for any client that has a password in the old format.

Answer D and C are incorrect. No such options are available with the server.

### **NEW QUESTION: 3**

When granting the appropriate privilege for a GoldenGate user using `dbms_goldengate_auth`, `grant_admin_admin_privilege ()`, If CAPTURE and APPLY are running in a multiple database, the container parameter must be set to what value?

- A. DEFAULT
- B. NULL
- C. CURRENT
- D. ALL

**Answer: D**

### **NEW QUESTION: 4**

Refer to the exhibit.

X Enterprises runs a private nursing home for the elderly. The company are concerned that bed occupancy rates have been falling over the past 2 years with a consequential effect on profit. They have drawn up a budget for next year as follows: The nursing home currently charges \$90 per patient day. The nursing home operates at 7,500 patient days per year. In an

effort to increase occupancy rates the company are proposing to reduce the current price by 10% and increase spending on advertising by \$10,000 each year. What effect will this have on the margin of safety?

- A. Reduce the margin of safety by 622 days
- B. Increase the margin of safety by 1,178 days
- C. Reduce the margin of safety by 1,178 days
- D. Increase the margin of safety by 622 days

**Answer: C**
