You may buy the product if you are satisfied with the demo, Is my Credit Card Information Secure at your site, Please be assured that with the help of JN0-104 learning materials, you will be able to successfully pass the exam.

You will not see any kind of problem regarding your personal information from our side, It's our responsibility to offer instant help to every user, At present, our JN0-104 study materials can give you a ray of hope.

NEW QUESTION: 1

Sie müssen die technischen Anforderungen für VM4 erfüllen. Was sollten Sie erstellen und konfigurieren?

- A. ein Azure Notification Hub
- B. eine Azure Logic-App
- C. ein Azure Event Hub
- D. ein Azure Services-Bus

Answer: C

Explanation:

Explanation

Scenario: Create a workflow to send an email message when the settings of VM4 are modified.

You can start an automated logic app workflow when specific events happen in Azure resources or third-party resources. These resources can publish those events to an Azure event grid. In turn, the event grid pushes those events to

subscribers that have queues, webhooks, or event hubs as endpoints. As a subscriber, your logic app can wait for those events from the event grid before running automated workflows to perform tasks - without you writing any code.
