Our JN0-422 quiz braindumps can be called consummate.

#### **NEW QUESTION: 1**

Which statements are correct for forwarding traffic into MPLS TE tunnels? (Choose 3)

- A.** Autoroute causes the tunnel to be treated as a directly connected link to the head-end.
- B.** Autoroute causes the TE head-end to establish IGP adjacency with the tail-end over the tunnel.
- C.** Forwarding adjacency makes the TE head-end node advertise the Tunnel LSP into the IGP.
- D.** Forwarding adjacency supports unequal cost load balancing over multiple TE tunnels.

**Answer: A,C,D**

#### **NEW QUESTION: 2**

You create a resource group named RG1 in Azure Resource Manager.

You need to prevent the deletion of the resources in RG1.

Which setting should you use? To answer, select the appropriate setting in the answer area.

**Answer:**

Explanation:

Explanation

You can configure a lock on a resource group to prevent the accidental deletion.

As an administrator, you may need to lock a subscription, resource group, or resource to prevent other users in your organization from accidentally deleting or modifying critical resources. You can set the lock level to CanNotDelete or ReadOnly. In the portal, the locks are called Delete and Read-only respectively.

\* CanNotDelete means authorized users can still read and modify a resource, but they can't delete the resource.

\* ReadOnly means authorized users can read a resource, but they can't delete or update the resource.

Applying this lock is similar to restricting all authorized users to the permissions granted by the Reader role.

**NEW QUESTION: 3**

Which statement is true about internal and external LOBs?

- A.** Internal and external LOBs can be written using DBMS\_LOB.
- B.** After an exception transfers program control outside a PL/SQL block, all references to open external LOBs are lost.
- C.** When using DBMS\_LOB.INSTR for internal and external LOBs, DBMS\_LOB.OPEN should be called for each LOB.
- D.** An external LOB can be loaded into an internal LOB variable using the DBMS\_LOB package.
- E.** A NOEXIST\_DIRECTORY exception can be raised when using internal and external LOBs.

**Answer: B,C**
