- B: Number of outstanding defects less than 5
- C: Number of defects per test case less than 0.5

The first week of the testing has shown the following results:

**NEW QUESTION: 3**

Which of the following is NOT an administrative control?

- A. Logical access control mechanisms
- B. Screening of personnel
- C. Change control procedures
- D. Development of policies, standards, procedures and guidelines

**Answer: A**

Explanation:

Explanation/Reference:

Explanation:

Administrative controls are security mechanisms that are management's responsibility and referred to as "soft" controls. These controls include the development and publication of policies, standards, procedures, and guidelines; the screening of personnel; security-awareness training; the monitoring of system activity; and change control procedures. Logical access control mechanisms are not an example of administrative controls. They are an example of a "Logical control" also known as a "Technical control".

Incorrect Answers:

- B: Screening of personnel is an example of an administrative control.
- C: Development of policies, standards, procedures and guidelines is an example of an administrative control.
- D: Change control procedures are an example of an

administrative control.
